

| Ref # | Prescribed Threat  | ThreatSubcategory  | Circumstances  |
|-------|--|--|--|
| 1944  | The application of agricultural source material to land.   | Application Of Agricultural Source Material (ASM) To Land  | 1. Agricultural source material is applied to land in any quantity. 2. The application may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1945  | The use of land as livestock grazing or pasturing land, an outdoor confinement area or a farm-animal yard. O. Reg. 385/08, s. 3. | Management Or Handling Of Agricultural Source Material - Agricultural Source Material (ASM) Generation | 1. The use of land as livestock grazing or pasturing land for one or more animals. 2. The land use may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1946  | The use of land as livestock grazing or pasturing land, an outdoor confinement area or a farm-animal yard. O. Reg. 385/08, s. 3. | Management Or Handling Of Agricultural Source Material - Agricultural Source Material (ASM) Generation | 1. The use of land as an outdoor confinement area or a farm-animal yard for one or more animals. 2. The land use may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1956  | The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage.          | Sewage System Or Sewage Works - Septic System  | 1. The system is an earth pit privy, privy vault, cesspool, or a leaching bed system and its associated treatment unit and is a sewage system as defined in section 1 of O. Reg. 350/06 (Building Code) made under the Building Code Act, 1992 or a sewage works as defined in section 1 of the Ontario Water Resources Act. 2. A discharge from the system may result in the presence of one or more pathogens in groundwater or surface water. |
| 1957  | The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage.          | Sewage System Or Sewage Works - Septic System Holding Tank   | 1. The system requires or uses a holding tank for the retention of hauled sewage at the site where it is produced before its collection by a hauled sewage system. 2. A spill from the tank may result in the presence of one or more pathogens in groundwater or surface water.   |
| 1958  | The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage.          | Sewage System Or Sewage Works - Sanitary Sewers and related pipes                                      | 1. The system is a wastewater collection facility that collects or transmits sewage containing human waste, but does not include any part of the facility that is a sewage storage tank or works used to carry out a designed bypass. 2. The discharge from the system may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1959  | The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage.          | Sewage System Or Sewage Works - Sewage Treatment Plant Effluent Discharges (Includes Lagoons)          | 1. The system is a wastewater treatment facility that discharges to surface water through a means other than a designed bypass. 2. A discharge may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1960  | The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage.          | Sewage System Or Sewage Works - Storage Of Sewage (E.G. Treatment Plant Tanks)                         | 1. The system is a sewage treatment tank or sewage storage tank in either a wastewater collection facility or wastewater treatment facility, and any part of the tank is at or above grade. 2. A spill from the tank may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1961  | The establishment, operation or maintenance of a system that collects, stores, transmits, treats or disposes of sewage.          | Sewage System Or Sewage Works - Storage Of Sewage (E.G. Treatment Plant Tanks)                         | 1. The system is a sewage treatment tank or sewage storage tank in a wastewater collection facility or a wastewater treatment facility and the tank is below grade. 2. A spill from the tank may result in the presence of one or more pathogens in groundwater or surface water.  |
| 1962  | The storage of agricultural source material.   | Storage Of Agricultural Source Material (ASM)  | 1. Any portion of the agricultural source material is stored at or above grade in or on a permanent nutrient storage facility. 2. A spill of the material or runoff from an area where the material is stored may result in the presence of one or more pathogens in groundwater or surface water.   |
| 1963  | The storage of agricultural source material.   | Storage Of Agricultural Source Material (ASM)  | 1. The agricultural source material is stored entirely below grade in or on a permanent nutrient storage facility. 2. A spill of the material or runoff from an area where the material is stored may result in the presence of one or more pathogens in groundwater or surface water.   |
| 1964  | The storage of agricultural source material.   | Storage Of Agricultural Source Material (ASM)  | 1. The agricultural source material is stored at a temporary field nutrient storage site. 2. A spill of the material or runoff from an area where the material is stored may result in the presence of one or more pathogens in groundwater or surface water.  |

**PROVINCIAL TABLE 14 (PW8M): Pathogens in WHPA A, B with a vulnerability of 8 where threats are moderate**

| <b>Ref #</b> | <b>Prescribed Threat</b>   | <b>ThreatSubcategory</b>   | <b>Circumstances</b>  |
|--------------|--|--|---|
| 1966         | The handling and storage of non-agricultural source material.  | Storage of Non-Agricultural Source Material (NASM)   | 1. The non-agricultural source material contains material generated by a meat plant, and any portion of the material is stored at or above grade. 2. A spill of the material or runoff from an area where the material is stored may result in the presence of one or more pathogens in groundwater or surface water. |
| 1968         | The handling and storage of non-agricultural source material.  | Storage of Non-Agricultural Source Material (NASM)   | 1. The non-agricultural source material contains material generated by a meat plant, and the material is stored entirely below grade. 2. A spill of the material or runoff from an area where the material is stored may result in the presence of one or more pathogens in groundwater or surface water.             |
| 1969         | The establishment, operation or maintenance of a waste disposal site within the meaning of Part V of the Environmental Protection Act. | Application Of Untreated Septage To Land   | 1. Land application of hauled sewage in any quantity. 2. The application may result in the presence of one or more pathogens in groundwater or surface water.   |
| 1971         | The application of non-agricultural source material to land.   | Application Of Non-Agricultural Source Material (NASM) To Land (Including Treated Septage) | 1. The application of any quantity of non-agricultural source material that contains materials from a meat plant or sewage works. 2. The application may result in the presence of one or more pathogens in groundwater or surface water.   |
